Meeting Report

Date: March 13th, 2024

Duration: 1h12 minutes (on zoom)

Attendees

Asma Aimade

Apolline Leboucher

Kaoutar El Azzab

Mohamed Gueye

Baudelaire Tsoungui Nzodoumkouo

Agenda

Review of Code Improvement Points

Discussion on Pending Tasks and Bugs

Extension of Tasks to Sprint 3

Assign specific tasks to team members

Schedule to follow up on bug resolutions

Discussion Summary

The meeting commenced with a thorough review of the existing codebase to identify areas for improvement. Various points were discussed, including but not limited to code readability, efficiency, and maintainability. Through collaborative efforts, we outlined specific strategies to ameliorate these aspects in our code.

Next, the focus shifted towards addressing pending tasks and bugs within the project. Each task and bug were meticulously examined, and their current status was evaluated. A candid discussion took place regarding the challenges faced and potential solutions to expedite the resolution process.

In light of the ongoing workload and the necessity for further refinement, it was unanimously agreed upon to extend certain existing tasks to Sprint 3. This decision was made to ensure that sufficient time and resources are allocated to effectively tackle these tasks without compromising the quality of deliverables.
